

# 3R VEGAN

## EXTREME

3R (Reuse-Reduce-Recycle) is our commitment towards a more sustainable and eco-friendly solution from the dekoGraphics portfolio of products. 3R VEGAN heat transfers are an evolution of PU polymers which have been produced from vegetable oils from renewable plants. The PU polymers are bio-degradable and dispersed by enzymes within soil and 3R VEGAN colours, will disintegrate, decompose and rot away when exposed to bacteria and fungus found in the environment.

### FEATURES

- Reuse-Reduce-Recycle
- Eco-friendly
- Vegetable oil from renewable plants (not Palm oil)
- Partly made from bio-based material and bio-degradable
- Multi colour design

### FINISHING & OPTIONS

- 50% recycled polyester carrier
- Ecomark
- Ecoflex
- CMYK

#### TOUCH / FEEL

Smooth

#### DESIGN

Freestanding

Our comprehensive range of products/heat transfers, have been created to compliment a wide range of applications in the sports, fashion and workwear environments. They are fully compatible with the standard range of fabrics and garments most commonly utilised throughout these three key markets. We would however ask that for non-standard applications that the respective fabrics are made available for pre assessment.
