

OKR Quick Boost Session

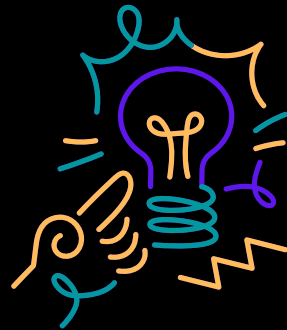

A different kind of Audit

You feel like your OKRs aren't getting you anywhere?
Or you're ready to scale but don't know how?
I'll help you take your OKR system to the next level!

What you'll get

1 Immediately implement actionable next steps or changes to your current OKR process.

2 Get an outside perspective from a practitioner with 10 years of experience who brings in objectivity and is ready to challenge.

3 Spot the banana skin before you slip on it.

4 Uncover and address blockers that keep you from achieving your goals.

How it works

I'll start with conducting short interviews with **3 of your employees who are involved in the OKR process.**

We'll then go through the insights and recommendations for next steps and tweaks together in a **90-minute live remote session.**
